Barra District

Barra District is a unique area in Macau with a relatively complete maritime culture and industrial complex. It consists of architecture revitalized from the former navy shipyard, maritime offices and slaughterhouse, which have witnessed the development of the area since the late 19th century. Centered in the Barra district, the area is now forming a unique historical, cultural and landscape atmosphere with the surrounding natural resources. MGM has revitalized the Barra District into a vibrant hub of "Living Art in Style", hosting a range of trendy art and cultural activities in the district.
